

We're Not The Big City: Community and Drug User-Led Response to the Toxic Drug Supply

March 16th, 2023 1pm (Est), Via Zoom

Attendance: 107

How we run OPS to accommodate all PWUD: 2
Tents, Volunteers, Love, Advocacy,
Fundraising, and Community Support

One tent is used for
inhalation drug use

One tent is used for IV
drug use

- Both tents are stocked with harm reduction supplies, snack bags, drinks, practical outreach supplies and supports according to community ask and time of the year
- Core volunteers help run the overall operations of the physical site
- Volunteers also help by fundraising, advocacy and promotion, and administration/organizational support

BECAUSE WE CAN'T NOT

This is for us, by us, in the absence of supporting systems and funding. We are proving it is NOT THAT HARD to love radically, to respond quickly, to act locally, and to think globally.

OUR LIVES MATTER.

Inhalation drug use continues to rise as the growing preference amongst PWUD; drug poisonings are increasingly being linked to inhalation use rather than IV use, and yet there are no supports in place for people in our community who choose to smoke their drugs.
